

VT408DIN

Sensor extension unit

Industrial monitoring & Control

*Monitoring your
infrastructure 24/7*

Features

Centralised Monitoring & Control

- Each unit adds x8 sensor ports
- Allows to connect chainable and non-chainable analog sensors
- Sensors are plug-and-play
- Supports full range of Vutlan sensors
- DIN rail mount

Scalability

- Max. distance from the monitoring unit is 225 meters.
- length of analog sensor cables: 50-150m (depends on sensor type)

Protocol support

- CAN

Specifications

Analog ports	x8 RJ11 6P4Cports
CAN bus ports	x2 ports (up to x8 CAN devices on a chain)
Terminator switch	x1 switch
LED indication	Error, Run (Activity)
HS code	8471 50 000
Max. distance from the unit	225m
Mounting	DIN rail
Product weight	130g
Operating temperature	Temperature : Min. -10° C - Max.+80° C
Operating humidity	0 to 90 %, non-condensing
Dimensions	Width 107mm, Height 90mm, Depth 65mm
Model Name	VT408DIN
Power	12V DC, 05A
Manufactured in	Slovak Republic, European Union
